

Madhav Paliwal

Software Developer

Highly motivated and skilled software developer with expertise in Java programming language and proficiency in frameworks like Spring MVC, Spring Boot, and Hibernate. Solid understanding of web technologies such as HTML, CSS, and JavaScript, coupled with strong database knowledge in MySQL. Seeking a challenging opportunity as a fresher to leverage my technical acumen and contribute to innovative software development projects.

Integrated Master of Technology (Information Technology)

International Institute Of Professional Studies
- Devi Ahilya VishwaVidhyalaya

08/2019 - Present

CGPA: 8.41

Intermediate

Cambridge Public HS School, Agar Malwa

07/2018 - 04/2019

Percentage: 86.60%

PERSONAL PROJECTS

BlogSphere : Blog Application (07/2023 - Present) [↗](#)

- **Blogify** is a robust and secure blog application that seamlessly blends Java and React technologies to offer an unparalleled writing and reading experience.
- **Seamless Authentication:** We've implemented Spring Security and JWT token authentication to safeguard user accounts and data, ensuring the utmost security.
- **User-Friendly Writing Interface:** BlogSphere provides an intuitive and distraction-free writing environment, making it easy for bloggers to focus on crafting their content.
- Rich Text Editing, Categorization, Responsive UI.

Microservices based Library Management System (10/2022 - 01/2023) [↗](#)

- The **Library Management** project is a web-based application that allows librarians to manage their library's inventory and lending activities.
- Built using **Java** and **Spring Boot** framework for implementing **RESTful APIs** and **microservices** architecture.
- The application supports multiple user roles with different levels of access privileges, such as librarian, administrator, and student.

Clone Of Instagram Web-App (03/2023 - 05/2023) [↗](#)

- **Full-Stack Social Media Application** : Developed a full-stack Instagram clone using Java, Spring Boot, and React, showcasing proficiency in both front-end and back-end technologies.
- **Secure User Authentication** : Designed and implemented a robust user authentication system, including features like account creation, password hashing, and session management, ensuring the security and privacy of user data.
- **Responsive User Interface** : Created a responsive and visually appealing user interface using React, enabling users to seamlessly access and interact with the application across various devices.

SKILLS

Java

Spring Boot

Spring MVC

HTML

CSS

JS

MySQL

REST API

Microservices

C/C++

Git & GitHub

SOFT SKILLS

Excellent Problem solving and Analytical skills

Good Communication Skills.

Ability to learn new technologies faster

Ability to manage team and collaborate as a team member

Good Leadership quality and having Organizational skills

CERTIFICATES
